A United Technologies Company

Security Products by GE are now part of the UTC Fire & Security family

We listened to you

# One platform, Unlimited possibilities

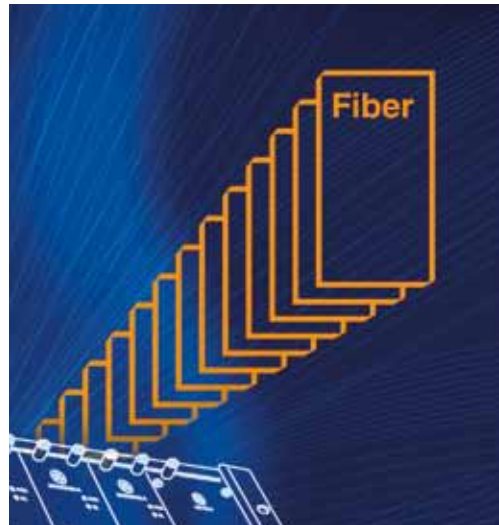

Selection tools to Fiber Options and IFS

UTC Fire & Security- Fiber&Transmission introduces a new range of transmission products; scalable and intelligent to meet today's needs and tomorrow's challenges.

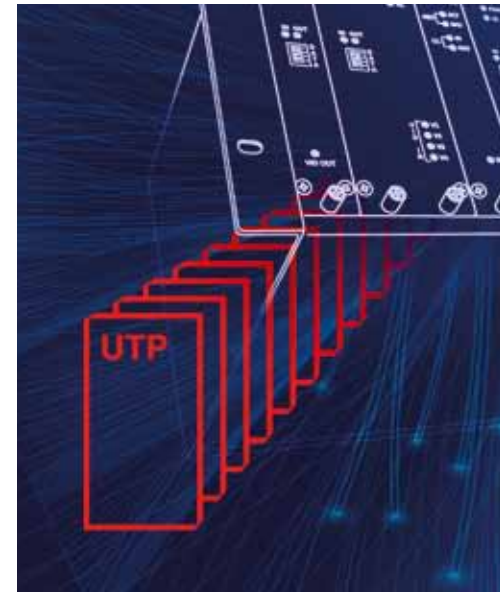

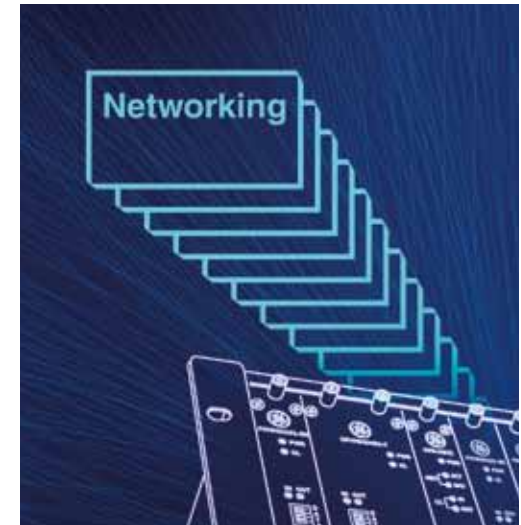

These cutting edge products offer a next generation of features:

- Fully comprehensive physical transmission solutions
- Remote cable and product diagnostics and testing
- 1300nm high performance single fiber operation
- Unique rackable solutions

UTC Fire and Security – Fiber and Transmission introduces a broad range of networking switches, flexible media conversion and full featured and cost effective UTP (Unshielded Twisted Pair) transmission.

The Ethernet coax converter transmits IP Ethernet over coax, therefore avoiding additional transitioning costs from analogue to IP.

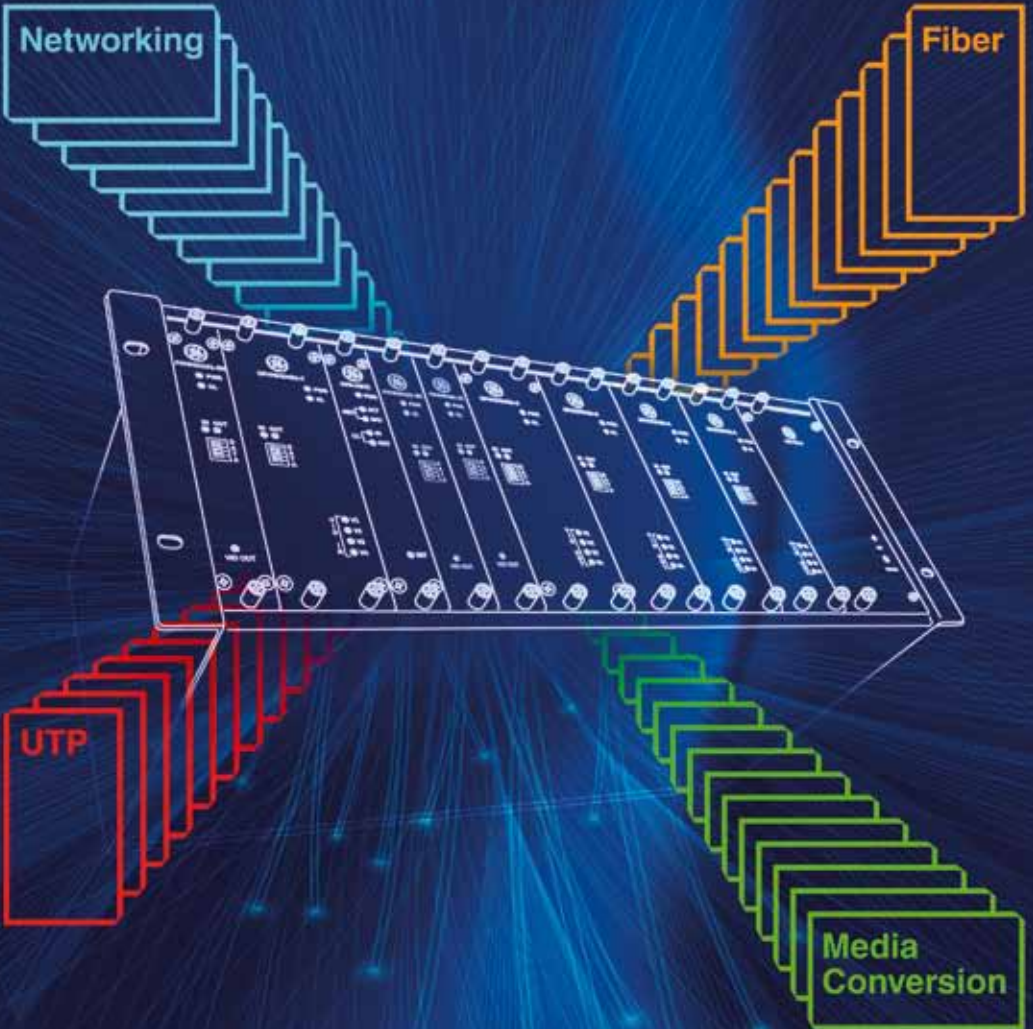

Scalable and intelligent, these enterprise-class solutions meet today's needs and tomorrow's security challenges
